Next to Walsall Post Office

with Dionne Frazer (Clinical Lead for Vulnerable Families)

The aim is to increase contact and understanding between existing and emerging communities in Walsall and to build relationships at neighbourhood level to secure sustainable improvements in community engagement, integration and cohesion. This will involve advising, supporting and empowering clients from New Communities in all subject based areas (welfare benefits, housing, employment, immigration, GP registration and any other enquiry area) with an emphasis on health, wellbeing and education including encouraging clients to attend ESOL classes.

In the main our clients will be from the following groups:-

- Refugees
- Migrants
- Asylum Seekers
- Clients who have recently been granted limited/indefinite leave
- Clients who have recently arrived in the UK
- Clients with no leave to remain
